

On Show

There are a few great opportunities to see expert furniture-makers and craftsmen at work this summer, starting with Art in Action where the OneOak project has a special exhibition of pieces. Amongst the exhibitors demonstrating will be Derek Elliott, who made 'Puck' (right) for an exhibition using furniture to express a story. The piece has the "cheeky stance of the mischievous troublemaker," Derek explains. Its use as a medicine cabinet reflects Puck's mayhem with the love potion

Show Art in Action runs from 19-22nd July at Waterperry outside Oxford
